GB Vehicle Fitting Information

1. This is an i-Size Enhanced Child Restraint System. It is approved according to UN Regulation No.129, for use in, i-Size compatible vehicle seating positions as indicated by vehicle manufacturers in the vehicle users' manual.
2. If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.

Seat positions in other cars may also be suitable to accept the child restraint.

The numbers on the diagram below correspond with the vehicle fitting positions listed in the following pages.

It will fit vehicles with positions approved as ISOFIX positions (as detailed in the vehicle handbook), depending on the category of the child restraint and of the fixture.

ALWAYS give priority to the rear seats of your vehicle.

DO NOT use the rearward facing enhanced child restraint systems in seating positions where there is an active frontal airbag installed.

If your child restraint can be fitted, it is marked with •

If your child restraint cannot be fitted, it is marked with ✗

If the vehicle is equipped with underfloor storage boxes, these positions are marked with ! - If in doubt always check the owner manual first and contact with vehicle manufacturer for the child restraint installation may not fully meet all requirements.

Vehicles with underfloor storage boxes are marked with !SB

Electric or hybrid vehicles are marked with ⚡

If your vehicle is not listed in this manual or it is not marked with either a • or ✗ then please refer to your vehicle's handbook or contact the manufacturer for further information.

This fitting-list was carefully prepared using scientific data collected from both vehicle and car seat. No liability is accepted for the accuracy of the list, which is for guidance purposes only. You are advised to check that the seat purchase is compatible with you car at the time of purchase.
