Mesh Headrest Dog Guard

2 YEAR
GUARANTEE

Fitting Instructions

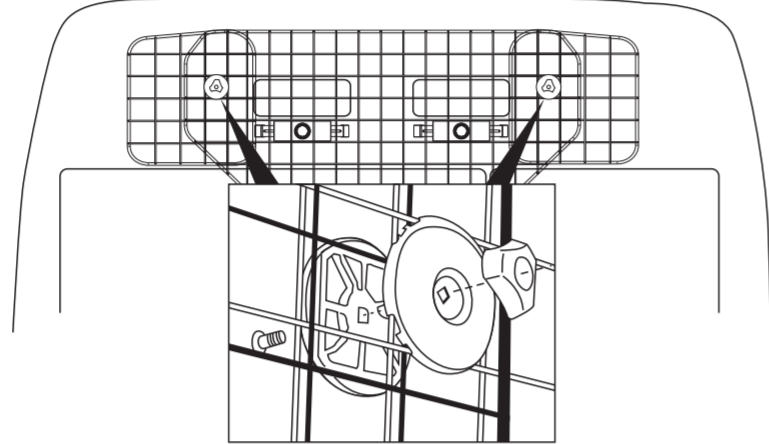

6

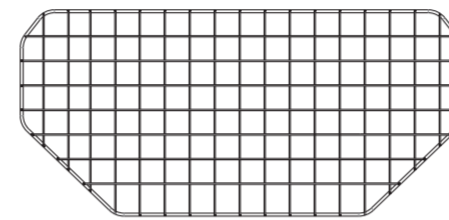

Attach the mesh bracket (D) to the headrest bracket (E). Insert the short plastic screw and turn clockwise to secure. Change the short plastic screw to the long plastic screw (C) if not long enough. Repeat for the second seat.

7

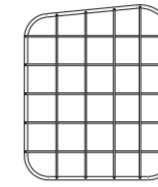

Fasten the extension clips (F) as seen here to attach the small mesh panels (B) to the large mesh panel (A).

Please follow instructions carefully to ensure the safety of you and your passengers. Make sure all parts are included in the package. Please retain these instructions for future reference.

1

(D+E)

(D)

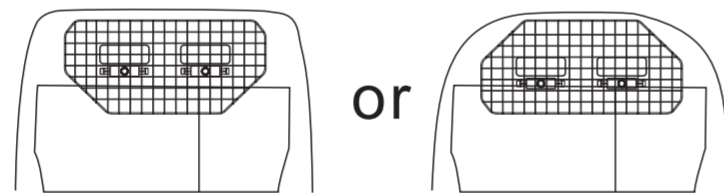

(E)

(E)

1.1 Separate the mesh bracket (D) from the headrest bracket (E) by turning the screw anti-clockwise.
1.3 Repeat for the second seat.

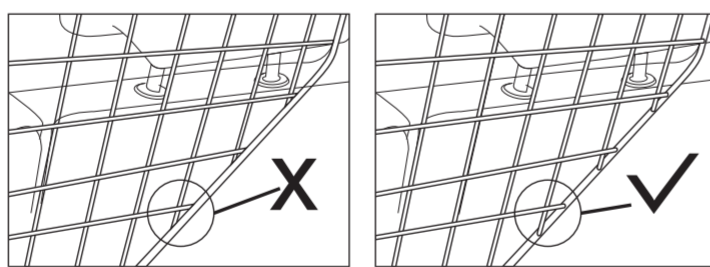

1.2 Open the headrest bracket (E) to the appropriate size and fit to the seat headrest.

2

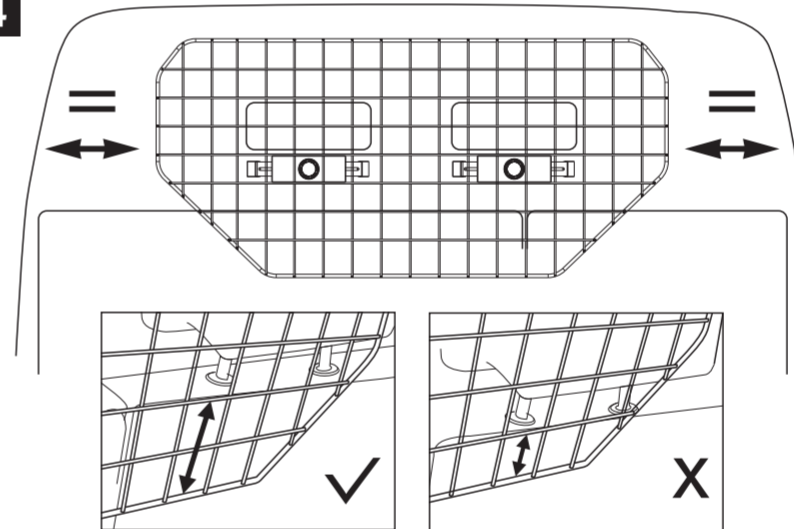

Position the large mesh panel (A) to suit your vehicle (see above).

3

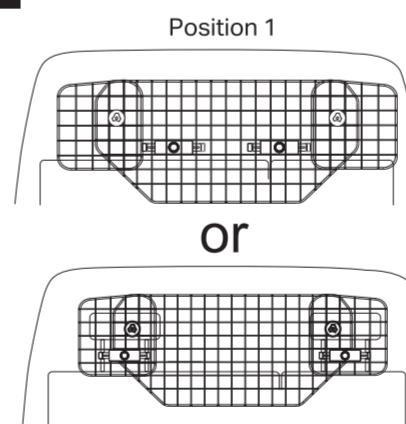

Place the large mesh panel (A) with the outer frame of the mesh facing the front of the vehicle.

4

Place the large mesh panel (A) centrally in the vehicle.

5

Possible mounting positions

Position 1

Choose the mounting position depending upon the width between the headrests.

or

If using position 2, fit the small mesh panel extensions (step 7) before fixing the guard to the headrests (step 6).

Position 2
