

## Important Safety Notice PRODUCT RECALL

### **Lazer Blade Bicycle Helmet (Item Codes, 209491, 209509, 209541, 209558)**

LAZER SPORT NV ("LAZER") has identified that in some cases, certain BLADE, MAGMA, ELLE and JADE bicycle helmets sold since January 2015 do not pass roll-off tests under the CE or CPSC standards. As a result, in rare circumstances, the strap anchorage may detach from the helmet during impact. It concerns all sizes of the CE helmets and sizes XS and S of the CPSC helmets affected.

To date, we are not aware of any reports of incidents and we consider the safety risk to be very low. However, as some products do not meet CE or CPSC standards, LAZER has decided voluntarily to undertake a recall of the helmets affected in countries where the roll-off test is a mandatory requirement

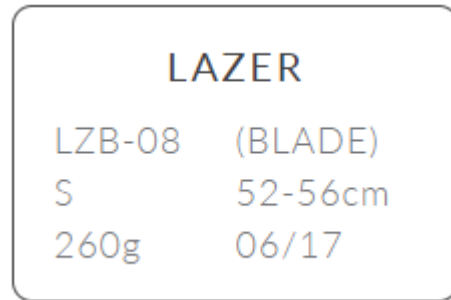

The LAZER helmets affected are only the following models:

Model Name	Helmets		
	Identification Code	CE Sizes	CPSC Sizes
BLADE	LZB-08	XS,S,M,L,XL	XS,S
BLADE (Asian Fit)	LZB-18	S,M,L	
ELLE	LZB-08	S,M,	S
MAGMA	LZB-08	XS,S,M,L,XL	XS, S
MAGMA (Asian Fit)	LZB-18	S,M,L	
JADE	LZB-08	S,M	S

No other LAZER helmets are affected.

The models affected were sold in a variety of colours.

A white sticker with model name, identification code and size can be found inside the helmet as shown below:

If you are in possession of an affected helmet please contact the retailer you bought it from as soon as possible to arrange a replacement of the helmet, free of charge. The replacement helmets, marketed under the names BLADE+ and MAGMA+, have a new strap anchorage designed to meet the required standards. They are CE or CPSC compliant and can be identified by codes ending with "081" and "181".

Consumers who are not certain whether their LAZER helmet is affected, should go to their dealer to have the helmets checked.

If you know someone else who has purchased one of these products, please ask him or her to return it to us as soon as possible.

If you have any queries, please speak to a member of staff or call Cycle Republic Customer Services on (+44) 01527 505618 or [contact-us@cyclerepublic.co.uk](mailto:contact-us@cyclerepublic.co.uk)

We apologise for any inconvenience caused.

Recall notice issued: 21.12.2018
